

STRONGHOLD[®] ST50, ST65 and ST75

SOLID STAINLESS STEEL, MARINE GRADE PADLOCKS

STRONGHOLD® ST50, ST65 AND ST75 RANGE MACHINED OUT OF SOLID STAINLESS STEEL Marine Grade Padlocks

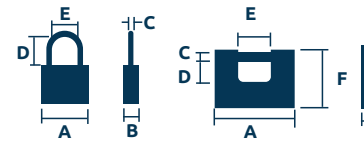

The **STRONGHOLD®** ST Range is based upon Squire's high security standard **STRONGHOLD®** range but manufactured out of **Solid Stainless Steel** offering unbeatable performance in wet environments.

These locks have been salt spray tested to 480 hours and meet the European corrosion resistance standard (EN 1670 - Grade 3 - ST50 Range).

The range comprises two body widths, standard, closed and long shackle variants. They are designed and assembled in the UK and combine the high level security and reliability of the standard **STRONGHOLD®** range with the benefit of extra weather resistance.

Ideal for marine environments, boats, jet skis, beach huts, fishing equipment, marinas, harbour and beach locations.

- Stainless steel shackles
- Standard, closed and long shackle variants available
- Solid stainless steel bodies 65mm and 50mm wide. Also included in the range a 80mm wide container lock
- 6 pin tumbler lock mechanism - double locking
- Anti-drill cylinder module
- Replaceable cylinder
- Over 260,000 key differs
- Salt spray tested for 480 hours
- CEN3 (ST50 Range)
- Designed and assembled in Britain
- Keyed alike versions available
- Highly weather resistant rustproof locks

Passed 480 hour salt spray test
