**BIKE LOCKS 2024**

# THE VERY BEST IN BICYCLE SECURITY DESIGNED FOR EVERY CYCLIST

Squire have been at the forefront of lock making since 1780 with a great British history carried down through an incredible eight generations.

In 1963 Squire launched the first range of cycle locks in the UK. We were ahead of our time and have continued to refine our products using modern innovative technology to create some of the toughest locks available, independently attack tested with proven theft resistance.

We stand by our reputation for long-lasting toughness by offering a personal 10-year guarantee from John Squire on our entire bike lock catalogue.

Choose from our unrivalled selection including **Stronghold**<sup>®</sup> maximum security bike locks, the innovative **Straplok**<sup>™</sup> and **Chainlok**<sup>™</sup> Wearable Bike Locks, heavy-duty Padlock & Chain Sets, D-Locks, compact Folding Locks, key and combination Cable Locks, ultra-light weight Cafe Bike Locks and our **inigma**<sup>™</sup> smart technology range.

Peace of mind At Home or On-The-Go, we've got you covered.

**TOUGHNESS GUARANTEED**

  
**240|YEARS**  
OF LOCKMAKING EXCELLENCE

# ACCREDITATIONS

## **SOLD SECURE**

Sold Secure are the premier British testing and certification body for all security products. Only locks that have been satisfactorily tested are allowed to carry the Sold Secure mark of approval. Squire offer a wide selection of Sold Secure bike locks ranging from Silver to Diamond level security suitable for all budgets.

## **BSI KITEMARK™**

The BSI Kitemark is recognised worldwide as the ultimate mark of quality, safety and trust. Squire are the first organisation to achieve a BSI Kitemark for the internet of Things (Residential) for bike lock. Our **Inigma™** bikelocks carry the IoT certification while our Inigma operating system carries the Kitemark for IoT Secure Digital Applications.

## **SECURED BY DESIGN**

SBD is the official police security initiative. It is owned by the UK Police Service and focusses on crime prevention through innovative security design. SBD works with industry bodies and test houses to create high level security standards. Many of our cycle locks are SBD approved.

## **IN-HOUSE TESTING**

Our in-house testing procedures are aligned to the highest security standards and testing guidelines set by Sold Secure and Secured By Design.

# ***SOLD SECURE INDEPENDENT ATTACK TESTING***

Sold Secure are the UK's premier independent testing and certification house, dedicated to reducing the risk of crime by the assessment of security products through manual attack.

Products which have been satisfactorily assessed will display a Sold Secure Approved quality mark giving assurance that the bicycle lock is up to the task.

Many bicycle insurance providers insist on the use of Sold Secure Approved products within their policy terms and conditions.

Squire offer a wide range of premium Sold Secure Approved bicycle locks suitable for use At Home or On-The-Go, toughness guaranteed for added peace of mind.

The 4 levels of Sold Secure Approved bicycle accreditations are outlined in the table to the right. This details typical attack duration times as well as tools and methods used.

# ***SOLD SECURE***

# SOLD SECURE CYCLE GRADES EXPLAINED

Helping you choose the right lock for your cycle.

## SOLD SECURE PEDAL CYCLE BRONZE

Ideal if you leave your pedal cycle for a short time in a low risk area like a cafe.

Typically lightweight and easy to carry.

## SOLD SECURE PEDAL CYCLE SILVER

Ideal for lower value pedal cycles left in a medium risk area like your local town centre.

Often the minimum grade insurers ask for when insuring a lower value cycle.

## SOLD SECURE PEDAL CYCLE GOLD

Best if you have a high value pedal cycle that you keep in a high-risk area.

Typically the minimum grade insurers ask for when insuring higher value pedal cycles.

## SOLD SECURE PEDAL CYCLE DIAMOND

Our highest grade aimed at very high value pedal cycles kept in very high-risk areas.

This grade of approval is designed to resist determined cycle thieves.

## SOLD SECURE POWERED CYCLE GOLD

A high level of protection for your powered cycle (e-bike etc.)

Robust locks with a high level of resistance.

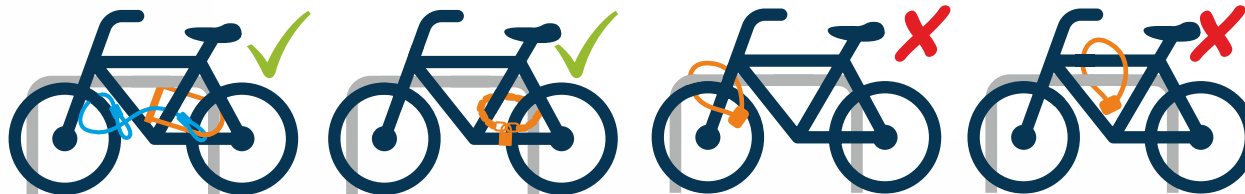

## SOLD SECURE POWERED CYCLE DIAMOND

Our highest level of security for powered cycles.

Great if you're looking for an extra level of security.

Tested with angle grinders.

## How to lock your bike correctly

- ✓ Consider using two different Sold Secure approved locks.
- ✓ Lock the frame together with a wheel to the stand.
- ✓ Do not just lock the wheel to the frame or stand.

## **PROUDLY SUPPORTING OUR BIKE LOCK AMBASSADORS**

World record breakers, professional athletes, presenters and content creators, our team of Squire ambassadors are testament to our 'toughness guaranteed' spirit. They will be putting our products to the ultimate test on the international stage with the added peace of mind that their bikes are safely secured both At Home and On-The-Go!

# **SCOTTY LAUGHLAND**

Nationality: UK

Professional Mountain Bike Athlete, Presenter and Content Creator from Scotland. Former DH World Cup and EWS racer now documenting his epic trail rides, bike builds and product test videos via a successful range of social media channels.

# AMBASSADORS

# MARTHA GILL

Nationality: UK

Professional Mountain Biker competing globally on the Crankworx circuit. Martha finished second in the overall queen of Crankworx standings and was the winner on the breakthrough rider award in the 2023 season!

# NICK SANDERS MBE

Nationality: UK

The ultimate adventurer on two-wheels! Fastest man to circumnavigate the globe by motorcycle. Has ridden around the world seven times, breaking two world records!

# **SQUIRE STRONGHOLD® D16 MAX** **MAXIMUM SECURITY** **ANTI-ANGLE GRINDER D-LOCK**

# **STRONGHOLD®**

An ultra-tough bicycle D-Lock which delivers extreme resistance against dedicated angle grinder attacks!

This formidable bike lock is reinforced with additional anti-angle grinder armouring material, proven to defeat multiple angle grinder discs! It features a heavy-duty 16mm boron hardened steel shackle encased in a tough TPE moulding, and a robust 25mm thick hardened steel high-security lock body to deliver cutting-edge defence against bike theft.

The **Stronghold® D16 MAX** is secured using a precision engineered high-security 6-pin key cylinder, including anti-drill, anti-pick and anti-bump technology with over 500,000 possible key differs. This restricted section key system comes complete with a personal key card to prevent unauthorised copying to provide an additional layer of security.

Independently tested, the **Stronghold® D16 MAX** easily surpasses the ultimate Sold Secure Powered Cycle Diamond rating, the highest level of security for powered cycles! This rigorous attack test includes multiple heavy-duty tools and techniques including pry bars, bolt croppers and high-powered portable angle grinders.

The **Stronghold® D16 MAX**. Maximum anti-angle grinder security for all high-end bicycles, e-bikes and e-cargo bikes.

# **LIGHTWEIGHT, TOUGH AND FLEXIBLE SECURITY WITH OUR INTEGRATED CHAIN AND CABLE KILDA BIKE LOCKS**

Innovative in design and available in both key and combination models.

The Kilda 6/900 integrated chain lock is constructed from a tough but lightweight 6mm diameter hardened steel chain and is protected with a durable scratch resistant chain sleeve cover.

Our wide range of key and combination Kilda cable bike locks are available in a variety of lengths and thicknesses. Constructed from high-tensile steel, these tough bike cable locks are ideal for securing your bike for short periods in low-risk areas, or for layering your bike security when locking wheels or accessories.

The Kilda 15/1800 is a long bike cable lock at 1.8 metres in length, with a tough 15mm diameter steel cable core wrapped in a protective weatherproof sleeve. A great option for locking multiple bikes together or for use as an additional security measure when transporting your bikes on a car bike rack.

## ***SECURE YOUR BIKES, WHEELS AND ACCESSORIES WITH A SECURITY CABLE KIT***

Extra-long security cable kits providing additional security when locking wheels, accessories or multiple bikes together. These multi-strand high tensile 12mm diameter steel cables are available in three different lengths. Featuring heavy duty, weather resistant protective covers and two looped ends to maximise usability.

Each security cable kit includes our best selling ultra-reliable CP50 4-wheel combination padlock, with an 8mm hardened steel shackle and handy push button opening.

Ideal for use At Home or On-The-Go, in your workshop or when transporting your fleet of bikes to the trail.
