

The Stronghold® ST Range **NEW**

Machined out of **solid stainless steel** Marine grade padlocks

The **STRONGHOLD®** ST Range comprises 65mm wide bodies (ST65), 50mm wide (ST50) and an 80mm container lock. The range is based upon Squire's high security standard **STRONGHOLD®** range but manufactured out of **Solid Stainless Steel** offering unbeatable performance in wet environments.

These locks have been salt spray tested to 480 hours.

The range comprises standard, closed and long shackle variants. They are designed and assembled in the UK and combine the high level security and reliability of the standard **STRONGHOLD®** range with the benefit of extra weather resistance.
