Overview	1 Flush Pull illustrated	2 General Dimensions of Flush Pull(s)

FINISHES

- MB Matt Bronze finish
- SB Satin Brass finish
- PN Polished Nickel finish
- SN Satin Nickel finish
- AT Antique Brass finish
- SC Satin Chrome finish
- PB Polished Brass finish
- PC Polished Chrome finish

FITTING

1 Position flush pull centrally to determine where to remove required recess for flush pull. This measurement is taken from the back view.

2 Remove just sufficient timber to create a recess for the back of the flush pull and which allows the plate to lie flat onto the surface of the door.

3 The door may dictate where the pull can be fitted, as general guide for fitting, the centre of the pull should be positioned approx. 1000mm from the floor, and this should be a suitable height for most people.
